SERVICES

I provide over 50 positions and services on a regular basis, mostly simultaneously, knowing how and when to switch between them as needed. Instead of hiring and dealing with over 50 individual people, each of whom would need to be background checked, trained, introduced into your lifestyle, acclimated to the way your home operates, and entrusted with your family, your home, your children, your life, your possessions, and your privacy/secrets, you will simply have me at your convenience upon immediate request and need for each service required.

1 person, instead of dealing with over 50 individuals.
